Solely the Result of the Railway Strike.

WALL STREET IS SERIOUSLY ALARMED

ENTIRE FINANCIAL HORIZON IS CLOUDED.

Course of Values, as a Result, Was Downward-Selling- Largely of Long Stock-Live Stock Markets Paralyzed-Silver and Lend Quiet and Almost Stationary-Outlook Not at All Encouraging.

New York, July 7.-The week closes on the stock exchange with a heavy tone to the speculation, solely as a result of the continuance and threatening charac-

ter of the rallway strike. It was not until today that Wall street took serious alarm at the condition of

affairs in the western railway world.

It has come to this, that the influence of the strikers is all-absorbing in the stock market and the immediate future of speculative values depends almost entirely upon the course of the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow where the railway workers and it is not allow the railway workers. workers, and it is not alone share values that are affected; the sterling exchange market developed a hardening tendency, today, by reason of the growth of a belief that if the situation does not im-prove American securities will be re-turned by foreign holders in such torned by foreign holders in such amounts as to cause a heavy demand for sterling bills, which would consequently command higher rates. The entire financial horizon is, therefore, clouded and no week of this year has closed with less of light to see into the near future of the stock market than does this one. The course of values today, for these reasons alone, was downward, prices with scarcely an exception declining steadily from the opening to the close of business. The selling was largely of long stock, which the holders did not care to carry over Sunday.

There were some sales for the short

over Sunday.

There were some sales for the short account, but in small amounts, the hears realizing that should there be a settlement of the labor difficulties the effect would result in a sharp advance in the

would result in a sharp advance in market.

Pullman was the heaviest sufferer of the entire list, declining 2 per cent.

Lead preferred fell off 1½; Burlington and United Shiles cordage preferred. 1½; Northwestern and Sugar, each 1 and the rost of the list 16% per cent.

The lone of speculation at the close was decidedly heavy and the market closed with a downward tendency in takes.

New York Mining Stocks, were fairly steady, and for an advance did not respond to the dead a little strength to the market.

The Kansas state report confirmed all the bad statements in regard to the yield of that state, making the crop but 206.

Outs were easy early, but firmed up on the strength in corn. The range for Septimes 196; Eurlington, 75; Mexican, 6%; San Diego, 6.
